Spring 2014 Newsletter

**Spring COLOR 2014....wear with *glowing skin* as your best accessory.**

Whether you choose to wear the color of the year, radiant orchid or dazzling blue or pastel shades, your best accessory will be glowing skin. As we age, our skin appears to be dull and we lose that youthful glow. Certain products along with cosmetic procedures can help you regain that glow. The Cosmetic Center offers free skin care consults with our aestheticians who can recommend customized skin care regimens and procedures which can help you achieve that glow.

Glycolic acid or polyhydroxy acid (for sensitive skin) will rejuvenate the skin, improve tone and texture and are found in several products; higher strength glycolic acid is also available in professional peels as well. Vitamin A derivatives such as tretinoin (Retin-A/Renova) or retinaldehyde (Retrinal) will speed up your cell turnover process, improve tone and texture, minimize the appearance of fine lines and wrinkles and fade pigmentation. Antioxidants such as vitamin C, green tea and coffeeberry treat the photodamage you have already received and prevent new photodamage. Pigmentation balancing peels are also very beneficial and will further target discoloration and therefore, brighten the skin.

Call the Cosmetic Center and make an appointment for a free skin care consultation with our aestheticians. For our Kingsport location call (423) 246.4961, option 15, Johnson City location call (423) 928.9014.
