All of Dermatology Associates' Mohs surgeons are fellowship-trained and are members of the American **College** of Mohs Surgery (ACMS). Dermatology Associates has the only fellowship-trained surgeons in Kingsport and Bristol.

You want your skin cancer treatment to be performed with the highest standards of quality and competency. While any board-certified dermatologist may perform Mohs surgery, only members of the ACMS have undergone rigorous fellowship training consisting of over 500 cases of varying complexity and extensive training in skin cancer pathology and facial reconstruction. Other professional organizations such as the American **Society** for Mohs Surgery (ASMS) do not require extensive fellowship training.
