Thank you for placing your trust in Dermatology Associates. We are pleased you have chosen our practice to care for your dermatologic needs. It is our desire that our patients’ experience be one that is not only beneficial to their overall well-being but is also pleasurable. If at any time you have questions or concerns, please let us know so that we might be able to better serve you.

PATIENT SATISFACTION

It is our genuine desire to create patient experiences that relieve suffering, impart joy, and deliver convenience.

Dermatology Associates strives to find opportunities to positively influence our patients’ collective experience throughout the entire process – from the time they call for an appointment, to the office visit/procedure, to assistance with billing questions. Dermatology Associates’ philosophy is that its employees must connect on a personal level with patients in order to effectively perform their individual tasks and to deliver exceptional care. Please let us know how we might better serve your needs.

Dermatology Associates consistently outscores other dermatology practices on nationwide patient satisfaction surveys. This includes all areas of patient interaction throughout their care with our providers and staff.

THREE CONVENIENT LOCATIONS

NEW FACILITY CONVENIENTLY LOCATED ON BOONES CREEK ROAD

In order to provide our Johnson City, Greeneville, and surrounding area’s patients with our extensive line of services, Dermatology Associates is excited to announce our newly constructed Johnson City office at 2885 Boones Creek Road. The new office offers general dermatologic care, Mohs surgery, and a state-of-the-art cosmetic center. The Johnson City office is now staffed by Dr. Allison Pierce, Dr. Kyle Radack, Dr. Holly Sanders, Dr. Casey Watkins, and Shelley Hilton, NP. We are also excited to announce that Dr. Chad Thomas, a Greeneville native, has expanded his presence at the new office's Mohs surgery suite.

NEW COSMETIC CENTER

Our new Cosmetic Center facility at the Johnson City office offers the newest in laser technologies including tattoo removal with the Lumenis PiQ04 which combines both nano-second and pico-second technology for pigment removal. All of our Cosmetic Centers are supported by our board certified dermatologists and fellowship-trained Mohs surgeons. The dermatologists provide medical direction for the centers by researching and adding products and procedures that have been scientifically proven to enhance the skin’s appearance and health.
If You Need Mohs Surgery, Ask if Your Surgeon is Fellowship-Trained.

Dermatology Associates is fortunate to have three fellowship-trained Mohs surgeons who are American College of Mohs Surgery (ACMS) members — Dr. Erin Reid, Dr. Chad Thomas, and Dr. Cory Trickett.

You want your skin cancer treatment to be performed with the highest standards of quality and competency. While any board-certified dermatologist may perform Mohs surgery, only members of the ACMS have undergone rigorous fellowship training consisting of over 500 cases of varying complexity and extensive training in skin cancer pathology and facial reconstruction. ACMS is the only organization that requires its members to be accepted and to successfully complete a fellowship that requires at least one full year of training and hands-on experience following completion of a dermatology residency.

Mohs surgery offers the following advantages:

- **Highest cure rate** - Because all surgical margins are examined microscopically in the office, this procedure has the highest cure rate of all skin cancer treatments.
- **Best cosmetic result** - Because there is no need to take a margin of healthy skin in Mohs surgery, the size of the wound left after tumor removal is minimized. Keeping the defect small optimizes the surgical repair, and produces a superior cosmetic result.
