There are several signs you may be experiencing Rosacea. You may experience any of the four symptoms listed.

- Facial Redness: Flushing and persistent redness. Visible blood vessels may also appear.
- Bumps and Pimples: Persistent facial redness with bumps or pimples.
- Skin Thickening: Skin thickening and enlargement, usually around the nose.
- Eye Irritation: Watery or bloodshot appearance, irritation, burning or stinging.

In the Cosmetic Center we carry several products to help control and help conceal your Rosacea.

ColoreScience

- Corrector Brushes: Helps conceal redness and all minerals formulation helps prevent chemical irritation.
- Line Tamer: Yellow color helps hide red discoloration while the active ingredients promote the actual reduction of redness in the skin.

Vanicream

- Skin Cream: A non greasy, long-lasting, moisturizing cream.
- Vanicream SPF 60: Sunscreen protection without the use of harsh sensitizing chemicals.
- Cleansing Bar: Bar soap free of fragrances and harsh chemicals.

Free and Clear

- Shampoo, Conditioner, and Hair Gel: Non-medicated chemical free hair care products and formaldehyde free.

Avene

- Thermal Spring Water: Offers exceptional soothing and softening properties and helps address the burning, stinging, and itching associated with sensitive skin.
- Redness Relief Soothing Cream: Light green cream neutralizes redness. Key ingredients help to strengthen blood vessel walls and improve overall vein health. Contains SPF 25
- Diroseal Anti-redness Skincare Lotion: Green tint nighttime cream formulated with retinaldehyde, provides immediate anti-redness neutralizing affect with little to no irritation.

We carry many other products that may be suitable for your skin type.
